

Workforce *Summit*

January 22, 2025, Columbia, SC

About the *Summit*

The Workforce Summit will focus on “Improving Access/Reducing Barriers”. This convening will shed light on the number one reason for workforce turnover and provide attendees with opportunities to explore community partnership models in action for our most persistent workforce challenges.

With thousands of open positions to fill on average each month for the past year, manufacturing and industry leaders in South Carolina face a workforce crisis. At the TASC Workforce Summit, employers can connect with transportation professionals, State Agencies, community partners and subject matter experts to learn from one another and discover solutions to meet the workforce needs of today and the future. Join us at the Workforce Summit and be part of the movement to shape the future of workforce in South Carolina.
